ONLINE ORDERING

Let diners order directly from you and keep %100 of the profits!

Introducing Creo Online Ordering, the system that lets you take orders directly on your own website and streamlines them right into your Creo POS. Make ordering more convenient for you and your guests, while keeping more profit in your pocket.

Monitor and Manage your STOCK Through Creo Inventory MANAGEMNT MODULE

You will gain better oversight of your stock and inventory guaranteeing a strong Return on Investment “ROI”. With Creo inventory module, this allows you to track, manage and monitor your stock in real-time, and manage costs more efficiently, decrease shrinkage and wastage, save time when it comes to stock take.

HARDWARE

Choosing the right point of sale equipment for your venue can seem like a daunting task at first. With so many POS devices to choose from, it's hard to know what's best suited to your venue's needs. That's why at Creo we try to make it as straightforward as possible. You can select POS equipment from a range of hardware bundles designed to suit venues just like yours, or you can pick out single items you need depending on your venue's requirements.

With years of experience working in the industry, we have sourced what we think is the best hardware equipment for a number of venue types. We offer the toughest, commercial-grade hardware to keep your venue running.
